

SMMS COVERALL

SPECIFICATION SHEET

FEATURES

- Made from complex non-woven layered material with elastic wrists and ankles.
- Outer layer of spunbound polypropylene, two inner layers of melt blown polypropylene and a final layer of spunbound polypropylene.
- The combination of layers gives the fabric high tensile strength, along with a good particle and fluid protection.
- Extremely comfortable, breathable, and economic cleanroom option.

QUALITY ASSURANCE CRITERIA

Guaranteed to be inspected to meet 4.0 AQL level II sampling plan per MIL-std-150E.

COVERALL SIZE CHART

Size	M	L	XL	2XL	3XL	4XL	5XL	6XL
A	38.75"	40.00"	40.50"	42.00"	42.50"	43.00"	44.00"	45.00"
B	25.00"	26.75"	29.75"	31.75"	34.50"	35.00"	35.50"	36.00"
C	34.00"	36.50"	37.00"	37.00"	40.00"	41.00"	41.50"	42.00"
D	28.50"	28.50"	30.25"	31.00"	32.50"	34.00"	35.00"	36.00"

Part Number	A-CV4PW-Size
Description	Cleanroom SMMS laminated coverall with zipper front and elastic wrists, back and ankles
Supplier	Benchmark Products
Size	Small – 6X
Color	White
Material	SMMS Layered Polypropylene Fabric
Material Basis Weight	60 grams
Tensile Strength	MD=90.4 N/5 cm TD=62.6 N/5 cm
Ultimate Elongation	MD=48.7% TD=60.9%
Air Permeability	323.32m/s
Packaging	5 per poly bag, 5 packs per case

V.9.BB
