## Product Overview & Guides

Kimtech™ M3 Pouch-Style Face Masks with Knitted Headbands are a smart piece of personal protective equipment (PPE) for your ISO Class 3 and higher cleanroom environment. The individually bagged masks have a low-linting polyethylene film outer layer that provides protection from contamination and the soft inner-facing fabric provides comfort. The pouch-style masks have a large breathing chamber for added comfort, two knit headbands to help ensure a tight facial seal, and a fully enclosed bendable nosepiece. They have excellent bacterial and particle filtration combined with good breathability. These face masks are popular for a variety of environments, including pharmaceuticals and biotechnology.

- 300 Kimtech™ M3 Pouch-Style Masks (6 Bags of 50), One Size, White
- Excellent bacterial and particle filtration efficiency
- Features two soft knit headbands and a fully enclosed, soft, bendable nosepiece for all-day comfort
- Made of a low-linting polyethylene outer layer and a soft inner-facing fabric
- Recommended for ISO Class 3 and higher clean room environments
