# STERILE PRE-SATURATED POLYPROPYLENE WIPES

## SPECIFICATION SHEET

#### **DESCRIPTION**

BenchmarkGMP Pre-Saturated Polypropylene Wipes are made from 100% melt blown polypropylene and they are saturated with a 70% isopropyl alcohol and 30% WFI DI water mixture giving them excellent durability and saturation. The pouches are individually bagged within a case liner to ensure sterility while remaining an economical option for both cleaning and disinfecting.

#### **APPLICATIONS**

- The material makeup of these wipes means they are low particle and fiber generating while maintaining durability.
- Ideal for use in cleanrooms, on equipment and in other critical manufacturing areas.
- Gamma Irradiated for sterile environments.

### **SPECIFICATIONS**

| Туре      | Method                            | Results                              |
|-----------|-----------------------------------|--------------------------------------|
| Particles | Orbital Shake Test IEST-4.3-6.1.4 | 48 x 10 <sup>6</sup> /m <sup>2</sup> |
| Fibers    | Orbital Shake Test IEST-4.3-6.1.4 | $7.6 \times 10^4/\text{m}^2$         |
| Sterility | VD Max                            | > 25 kGy                             |
